## **Assessment Information**

State law (sec. 70.32, Wis. Stats.) requires the assessment of taxable property (except agricultural, agricultural forest, and undeveloped) at full value as of January 1 each year. Assessments at a percentage of full value are acceptable when applied uniformly. To determine if your assessment is fair, you must analyze it in relation to full value. This is done by dividing your assessment by the general level of assessment for your municipality.

Under Wisconsin law, generally, the assessor may not change the assessment of property based solely on the recent arm's length sale of the property without adjusting the assessed value of comparable properties in the same market area. For information on the assessment of properties that have recently sold, visit the Internet site of the Department of Revenue at <a href="https://www.revenue.wi.gov/Pages/ERETR/data-home.aspx">https://www.revenue.wi.gov/Pages/ERETR/data-home.aspx</a>.

## Agricultural Land Conversion Charge

State law (sec. 74.485, Wis. Stats.) requires a charge for land converted from agricultural use to residential, commercial, manufacturing, or exempt. If you disagree with the assessment, you may appeal the conversion, classification change from agricultural at the local Board of Review (BOR).

See the *Agricultural Assessment Guide* (<u>https://www.revenue.wi.gov/Pages/HTML/govpub.aspx#property</u>) and Use-value Conversion Charge common questions (<u>https://www.revenue.wi.gov/Pages/FAQS/home-pt.aspx</u>) for additional information.

## **New Construction**

State law (Sec. 70.10, Wis. Stats.) requires that all general property must be assessed as of January 1st. If a property is under construction on January 1st, the assessor determines the value of the partially constructed buildings or improvements as of that date. Property taxes for the current year will be based on the assessed value as shown on your notice of changed assessment.
